

EMERGENCY EVACUATION PROCEDURES

SUMMARY OF EVACUATION PLAN

(to be exhibited in Chalet)

- It is the responsibility of chalet owners, guests and visitors to lodge details at the Site Office of all occupants of the chalet, together with contact details
- In the event of a flood alert warning or fire alarm being raised the Company will notify all occupiers of the chalets of that fact, and issue directions as to the action to be taken by occupants of the chalet
- The emergency warning on site is via a loud haler
- Chalet occupants must comply with any instructions issued
- In the event that any occupant becomes aware of any risk of flooding or fire they should immediately advise the Beach Manager or other responsible person at the Site Office of such risk
- In the event of an evacuation please leave the site as quickly as possible. Do not return to the chalet until instructed to do so by Site staff
- The assembly point is situated on the main green next to the shop
